Abbaqus is AI driven professional development platform empowering people to advance their career and grow in their profession. It provides a medium for researchers and professionals to share research knowledge, gain insights and collaborate. Its unique value proposition is offering personalized content leveraging Artificial Intelligence, easy way of sharing research papers and providing in-depth research analytics for every user on the platform. It thereby offers a compellingly easy and effective solution for researchers to collaborate and stay at the top of their profession. Abbaqus users also gain industry and academia's most essential technical information and access career development opportunities. This empowers people with skills, knowledge and expertise, and helps them be more productive in their profession.
