## Product Description

### 100% Polyester Hexagonal Mesh Fabric for Tent

The [polyester hex mesh fabric](#) is a 100% polyester knitted fabric. polyester hex mesh fabric is used for car roof tents, it can help you avoid mosquitoes and insects.

### Advantages of Polyester Hex Mesh Fabric

- Polyester is a common fiber found in most textile manufacturing facilities.
  - Using polyester silk as a raw material increases the strength of the fabric.
  - Super breaking strength makes it durable.
-

- Polyester webs are hydrophobic - i.e. tend to repel water - which means better pigment absorption and drying time.

- Favorable's airiness can increase your comfortable feeling.

- High color fastness makes it hard to fade.
