Align Health is a professional physical medical center serving our Dallas Fort Worth metropolitan community. We treat patients suffering from back pain, knee pain, headaches, chronic fatigue and more. We have found that these symptoms are often caused by a certain dysfunction or degeneration in the body. Our goal is to medically restore function instead of just masking the symptom. We alleviate these unwanted symptoms by finding and treating their underlying causes. If you are suffering from pain we are here to help.

Payment Methods: visa, master, amex, discover
