With tech giants like Google, Amazon, and Facebook growing their teams here, Pune is the hottest place for startups and new companies looking to build their project. With close to 600 IT Firms established in the city of Pune, there are a great amount of opportunities for front-end developers. But how does one become an expert at front end development?

—

As a developer, you need to harden your muscle by staying one step ahead of the tech world. In order to make this possible, we enable learners to continue their education with short, affordable courses on front end development. You can either study at home or work remotely and learn of emerging technologies like Blockchain and IoT with industry experts pooling their decades of expertise. So what are you waiting for? Those in Pune who are looking for short, informal training and development opportunities go here: IT Education Centre

—

Are you a digital entrepreneur? A student? Looking to become a full-stack web developer or designer? Are you interested in learning how to build Facebook apps, mobile apps, web applications, or design interfaces (UIs)? If so, then our multi-touch interactive [front-end development course](#) is for you.
