Based in Lawrenceville in Pittsburgh, Avere Beauty is a luxury med spa run by clinicians and medical professionals. We offer facial rejuvenation and self-care treatments to enhance your looks and confidence. Our affordable skincare routines include Botox injections to reduce facial fine lines and wrinkles, to treat chronic migraine headaches, and to prevent hyperhidrosis or excessive sweating. You can also get Jeuveau and Juvederm injections as dermal fillers, the former to reduce frown lines and the latter to redefine your lips. Plus, we offer [laser hair removal](#) treatment, and Kybella treatment to improve your profile. You can order the FDA-approved Latisse online or pick it up from our office. The Bimatoprost ophthalmic solution has clinically proven to be effective for increasing eyelash lengths. You can visit us at our office by appointment for the skincare sessions, or get in-home injections. In addition to creating a custom care plan for you, we can tailor a personalized noiseless and tranquil experience for you. Not only that, but we will also inform you about what to expect from the treatment you choose, and advise you on the steps you should take before and after your appointment. For instance, you should refrain from drinking alcohol for at least 24 hours before the treatment, not apply any makeup for at least 12 hours prior, and minimize your exposure to the sun. After the session, you should remain upright for up to six hours, avoid steamy baths, and avoid touching or rubbing the injection site. You can also make frequent facial expressions to achieve optimal results.
