Source:Kaempferia, [Black Ginger](#)

Origin of raw material:Thailand and Southeast Asia

Using part:Root

Appearance:Purple-black powder

Specification:5,7-dimethoxyflavone 10%

[Black ginger extract](#) is extracted from black ginger. The appearance is purple-black powder with different purity and specifications for men and women health products.

Overview:

Thai black ginger, also known as kaempferia (KP), is an herb that grows from the rhizome. Depending on soil conditions, the fresh interior of the tuber may be purple or black. Initially, Mongolian tribes used black ginger to relieve muscle pain. It is also used as a sexual stimulant and is said to cure impotence. Black ginger is also known as Thai ginseng. In Thailand, the properties of Thai black ginger can make people happy, energetic and balance blood pressure, as well as treat dysentery and stomach pain. That is why Thai black ginger extract is very popular in Thailand.

Benefits of Black Ginger Extract:

Black ginger extract has anti-allergic, anti-inflammatory, anti-mutagenic, anti-depressant, anti-cholinesterase, anti-microbial, anti-cancer effects, prevents peptic ulcers, protects the heart, and suppresses obesity.

For women, black ginger extract promotes radiance, healthy skin, and treats vaginal discharge. It also helps regulate the menstrual cycle, treats diabetes, reduces fat in blood vessels and extends life expectancy.

For men, the latest research on black ginger extract contains components that stimulate male androgens and promote male physiological function. It promotes the relaxation of vascular smooth muscle, thus increasing blood circulation for male reproductive function.

Properties and Applications:

- Blood circulation promotion
- Anti-inflammatory, anti-allergic and antioxidant activity of skin cells
- Antibacterial activity
- Man's Revival
- Natural treatment of erectile dysfunction

Slimming products

- Beauty applications
