

Blackhawk Floors, Inc.

Address	15507 N Scottsdale Rd, Suite 150
Contact Person	Melanie Randall
Mobile Number	
Email	hawkfloors6@gmail.com

A full-service hardwood flooring company with a showroom in North Scottsdale's Zocallo Plaza, Blackhawk Floors, Inc. has 20-plus years of industry experience and a record of completing over 2700 projects. Owner Jason Elquest is a Certified Wood Floor Inspector, and the company has certifications from the National Wood Flooring Association and the GREENGUARD Environmental Institute. We have been providing high-quality installations and flooring maintenance services at competitive prices in the Phoenix area since 2002. Whether you want chic and sophisticated flooring or one that is rustic and warm, our friendly office staff can help you find the right solid hardwood, engineered hardwood, and reclaimed wood flooring. Our skilled craftsmen have professional training in floor installation, refinishing, recoating, and inlays from the National Wood Flooring Association. They have installed various kinds of uniquely handcrafted hardwood flooring and waterproof luxury vinyl wood flooring in homes in Phoenix, as well as the Peoria and Scottsdale areas. Working under the supervision of our knowledgeable field representatives, they can also undertake [hardwood floor refinishing](#), floor recoating, and floor cleaning. As we use the Bona Atomic Dust Containment System for refinishing, the sanding process is faster, and there is no airborne dust. For recoating, we use non-toxic, water-based finishes that are quick-drying, fast curing, and durable. Along with deep-cleaning your floors, we can repair scratches, dents, dings, gouges, water damage, and termite damage. Learn more about our hardwood flooring range at <https://blackhawkfloors.com/services/installation/> & <https://blackhawkfloors.com/services/refinishing/>.
