cepaindiamarketing@gmail.com

In 2020, CEPA was established with the aim of improving trade between South Korea and India. Thanks to their work, small business owners have been able to discover new growth paths by connecting them to the international market. These allow Indian companies to procure raw materials from Korea. These products include small and medium-sized consumer goods such as cleaning supplies and baby care products. If you are an Indian business owner looking to enter the international market, please contact CEPA. For more information, please visit [cepaindia.com](https://www.cepaindia.com)
