China LiCB AC DC EV Charger Co., Ltd. has swiftly emerged as a leading [EV charger manufacturer](#) in China, dedicated to promoting sustainable transportation. We specialize in the independent research, design, production, and sale of a broad range of EV charging solutions, including space-efficient AC chargers and batteries for residential use, as well as high-speed DC charging stations for commercial applications. Our product portfolio also includes innovative large-screen chargers with integrated media displays and robust, high-performance charging cables.

With a strong emphasis on research and development, a talented engineering team, and an extensive portfolio of patents, we maintain the highest industry standards. Our commitment to innovation ensures that we provide reliable, state-of-the-art solutions that meet the dynamic demands of the ever-evolving EV market.
