Having a [conciierge](#) in your building makes a statement like no other. A conciierge is a warm friendly alternative to a standard uniformed security guard and provides a wealth of hospitality services that residents truly value.

Our [Conciierge team](#) is ready to help you out with just about anything. We've leveraged our alarm response infrastructure, including our industry leading key control system, to provide an entirely new level of customized service.

Our team has helped clients with everything from feeding the dog on time to driving the entire family to the airport. We've picked up dry-cleaning, gone grocery shopping and rushed to a client's home to pick up a hockey that was accidentally left behind in the rush out the door.

[Conciierge security staff](#) are fully licensed security officers who can not only look after the customer service aspect of the job but carry out security related duties as well when on shift. We can also provide First Aid trained conciierge staff (OFA2) who are trained to assist in basic medical related calls onsite for the client.
