At Connected Electrical in Chagrin Falls, Ohio, we pride ourselves on illuminating the Cleveland - All of Northeast Ohio region as well as the greater Columbus area with superior electrical expertise. Our skilled electricians excel in a wide array of services including basic electrical work and intricate installations such as ceiling fans and light fixtures that add both comfort and flair to any room. For those seeking green energy solutions, our proficiency extends to EV charger installation for an eco-friendly lifestyle. In addition to these interior enhancements, we offer exterior improvements through security light installation and sophisticated landscape lighting designs that not only increase property value but also enhance safety measures. Our understanding of strategic outdoor lighting extends into commercial realms where we provide robust commercial outdoor lighting options tailored for businesses.
