Equipment Rentals India is India's leading exchange to buy sell and rent heavy construction equipment. Our database is updated every day with the latest equipment available for sale or rent at different locations throughout India.

ERI is an endeavor towards meeting one of the basic needs of the construction and mining industry i.e. making the equipment purchase/sale and rentals simpler, transparent and cost-effective. Its an initiative by a dynamic and experienced team that feels that the technology can bring together a set of people with complimenting needs on one single platform.
