[Crown & Stone Law, P.C.](#) – Accident and Injury Lawyers is a Beverly Hills-based law firm exclusively focused on personal injury representation. Located at 407 N Maple Dr, our mission is simple: advocate for victims and their families with integrity, precision, and unwavering dedication. From car crashes to pedestrian injuries, our experienced legal team works tirelessly to deliver outcomes that restore dignity and justice.

Getting injured in a traffic accident can leave you overwhelmed—emotionally drained, financially strained, and unsure of what steps to take. Our Beverly Hills car accident lawyers understand the pressure and confusion that follows a serious collision. We're here to take that weight off your shoulders, handling the legal details so you can concentrate on healing and recovery.

Beverly Hills sees a high volume of vehicle traffic and foot traffic, and with that comes increased risk. According to the California Office of Traffic Safety, 48 pedestrian-involved collisions were reported in Beverly Hills in 2022, placing the city 2nd in the state for pedestrian incidents among cities of comparable size. Another 38 collisions involved bicyclists, giving Beverly Hills the highest cyclist injury rate in its peer group. These aren't just numbers—they reflect the everyday dangers residents and visitors face on streets like Santa Monica Boulevard, Wilshire Boulevard, and near Rodeo Drive.

If you or a loved one has been injured in one of these high-risk zones, fast legal action is essential. California law limits the time you have to file a claim, and missing that deadline can cost you your right to recover damages.

At Crown & Stone Law, P.C. – Accident and Injury Lawyers, we take swift, decisive action to protect your interests. Our attorneys tailor each case strategy to the unique circumstances of your injury, fighting for compensation that truly reflects your pain, medical needs, and long-term impact.
