Deltic is a prominent manufacturer of E-rickshaw and its other standard accessories. Deltic is built on the strong foundation of [BMA Group](#); a group that has pioneered since 1920's and now has a turnover of more than 300 million dollars. BMA is a successful example of how traditional experience seamlessly works with the constantly evolving generation. BMA has successfully triumphed many heights by venturing into:

1. Steel- BMA Stainless Ltd.
2. Ferro Alloys- Maithan Alloys Ltd.
3. Cement- Purvanchal Cement Ltd.
4. Refractories- National Refractories Pvt. Ltd.
5. Stock broking & Financial advisory- BMA Wealth Creators.

Delta Autocorp LLP (Deltic) is a leading manufacturer of alternative fuel vehicles specializing in electric vehicles. We at Deltic are front runner in E-Mobility and crossing benchmarks in technology and design to build connectivity that is more than futuristic sustainable and affordable. We at Deltic are playing a vital role in spearheading technology in the transportation sector by developing state of art E-Scooters, E-Rickshaws and E- Loaders.

1) **Deltic The Rising STAR**

STAR E-Rickshaw is miles ahead in the race with a 25% higher mileage than any other E-Rickshaw in the country. The cutting edge technology used, packs power in our E-Rickshaw to cover 125 kms in a single charge.

2) **Deltic VISTA**

Deltic has used cutting edge robotic technology to develop Vista. This e-rickshaw has an easy to operate steering function and top of the line technology to make it low on maintenance and high on efficiency.

3) **Deltic – DASH – Just Ride it Effortlessly**

DASH E-Scooter have been designed to make ride easy and comfortable in the traffic and the end product crosses all expectations and benchmarks when it comes to comfort, design and cost (Rs 0.20 per Km) with a mileage of 70 Kms in a single charge.

4) **Deltic EZ – Life is EZ**

EZ is carefully designed and developed to provide an easy ride experience to its customers. A dedicated team of highly skilled individuals have made these vehicles with advanced technology and they come to garage with low maintenance, zero emission and infinite savings as running cost is as low as (Rs 0.16 per Km).

5) **Deltic VAYU**

Deltic E-Loader has an easy to operate steering function and top of the line technology to make it low on maintenance and high on efficiency. Mileage of more than 100 Kms in single charge, heavy duty chassis coupled with hydraulic shock absorbers makes it best in class in E-Loader segment.
