**Docod Precision Group Limited** has been focusing on the design, R & D, production, sales and service of inkjet marking machine and parts products, and is committed to realizing various marking solutions for users worldwide with its excellent technology. The group was established in 2003. The core team members all have more than 10 years of experience in the inkjet marking industry and can provide very professional and high-quality services.

We have established the **Docod Inkjet** Research Institute and continue to specialize in the technology of inkjet marking. At the same time, it integrates the Internet of Things and artificial intelligence technology to continuously improve the application scope of product functions. In response to the guidelines of Made in China 2025 and Industry 4.0, we will continue to promote intelligent manufacturing and constantly improve our own design and manufacturing technology innovation system to provide a variety of integrated logo integration solutions.

The group's products include **small character inkjet printers**, large character **inkjet printers** and high-resolution inkjet printers, as well as various related parts to choose from. They all have stable performance and reliable quality and are now in use. It is highly recognized by customers in more than 100 countries and regions around the world. Our standardized series of products can easily and quickly solve customers' various coding requirements. At the same time, it can also provide personalized customization services, including a complete set of identification solutions from special requirements, applications, software to hardware.
