TRANSFORMING THE SAND MARKET

Doctor Sand has set its eyes on completely transforming the sand market. On the demand side, it is solving the age-old problems including:

- Lack of price transparency
- Inconsistent supplies
- Fragmented vendor base
- Unavailability of suppliers with pan-India footprint
- Inefficient logistics

On the supply side, it is organizing the MSME players in the sand and aggregate industry and are solving their pain points such as:

- Limited working capital
- Incompetent business development
- Inadequate technical know-how
- Underutilized plants

With its world class team of technicians, industry veterans and management professionals, **Doctor Sand** has been able to add tremendous value to the operations of its Cloudmill partners. The impact can be felt in quality enhancement, improvement in yield and ROI, and overall cleansing of a market riddled with deep-rooted issues with work culture, talent acquisition, and underutilized production capacities in our manufacturing value chain.
