Founded in 2001, [Garis](#) is the earliest domestic professional manufacturer that independently researches, develops, produces and sells cabinet furniture damping drawer slides, basket damping slides, and hidden silent wooden slides. Garis has the full line damping drawer slides in the industry and the most abundant drawer compartment partition system, has become a strategic partner of many cabinet manufacturers and pull basket manufacturers at domestic and oversea.

After 20 years, GARIS has established a strong production system. The existing production area is more than 200,000 square meters and more than 1200 technicians. The entire production process ranges from raw material slitting to stamping, molding, injection molding, spraying, assembly, quality inspection, and products. The shipment adopts integrated management and is completed in the factory.

We can provide integrated customized services from product design and manufacturing to delivery according to customer needs. The company is committed to technological innovation, focusing on new product development and production, brand marketing, competitive technology and nearly 70 patents. In 2012, it was successively rated as "Dongguan Patent Cultivation Enterprise" and "National High-tech Enterprise".

GARIS has international quality management ISO9001, ISO14001 and SGS system certification, production application ERP management system, a large number of automated production equipment, so that the product quality is continuously improved, and the performance is more stable.

GARIS will continue to work hard on product development and design, production automation and brand management construction, accelerate the pace of innovation and reform, and provide customers with high-quality products and services.
