No matter how high you jump to score a point, the shoes won't be putting any extra pressure on your feet while you land back on the court. Last but not least, the best traction [salomon shoes](#) have got a rugged and flexible rubber outsole with improved grooving. Therefore, making swift movements to dodge the opponent looks like a piece of cake while you are wearing the shoes.

De-lace your shoes and gently brush the mixture into the surface. press just hard enough to brush away dirt. lightly paint on a second coat of the paste and drop your laces into what's left. Set the shoes and laces outside under the sun and let them sit for three to four hours, until the paste is dry and cracking. Clap your shoes together to get the majority of the mixture off and brush away the bits that remain.
