Empowered with knowledge of India's extreme weather conditions, Merx Windgo has designed uPVC and System Aluminium Windows and Doors and Solid Panel Doors that are able to withstand extreme tropical climate. It's high performance products add an architectural dimension to your home and keep out street noise, dust, pollution, rain and wind. Its solutions outlast buildings. No other company in India boasts of such a world-class infrastructure or has complete control over the entire supply chain of window and door manufacturing and installation. It takes all-round expertise in extrusion, design, planning, fabrication, delivery and installation to produce a world-class window. These are wide-ranging skills and they reside only with Merx Windgo.
