Eco Earth Bed Bug Dogs is a company that specializes exclusively in the detection and removal of bed bugs. We are fully dedicated to taking an environmentally healthy approach to eliminating bed bugs. Our team realizes many of the concerns our clients face when determining what method of bed bug removal to select. Time and time again the harmful effects of chemical pesticides and insecticides in both humans and animals have been proven. Our methods have been proven both safe and effective. Why risk exposing your family and pets to harsh chemicals when it is absolutely unnecessary. Our team is highly efficient and we will guarantee results.
