The Eye Institute of Austin has proudly offered central Texans passionate, dedicated, and quality ophthalmologists, eye doctors, and eye care services for the past 30+ years. Each one of our physicians and staff is absolutely committed to providing the best clinical experience each time you visit our office. Promoting the health interests of your eyes and helping you obtain the best vision possible are our goals. We have a group of eight physicians that offer a broad range of ophthalmic services to fully diagnose and treat eye diseases.

Our services include: general eye care exams, LASIK and laser vision correction glasses and contact lenses, cornea evaluation and treatment, glaucoma evaluation and treatment, cataract surgery and vitreo-retinal disease evaluation and treatment. Patients at the Eye Institute of Austin have easy access to a wide range of services and highly trained eye care providers that utilize the most current practice standards in one conveniently located office.

Our dedicated staff is committed to helping our patients receive the best care for their eyes. In short, we don't just specialize in eyes; we strive to make your eyes feel special!
