What are freeze-dried vegetables?

[Freeze-dried vegetables](#) are short for vacuum freeze-dried vegetables, also known as FD vegetables. Due to the special process of freeze-drying, the colour, aroma, nutrition, appearance and shape of the original fresh vegetables can be maximised; in addition, freeze-dried products do not contain preservatives and can be kept at room temperature for more than 5 years, and the finished product is light in weight, easy to carry and transport, making it an excellent way to process vegetables for travel, leisure and convenience. Freeze-dried vegetables, the aristocrat formerly known as [astronaut vegetables](#), have quietly come into people's lives.
