greenlungs.earth@gmail.com

Green Lungs Earth Foundation is the “Tree Planting Partner” of [India](#). We believe that “We the People of India” run this country. We have embarked on a mission to plant One Billion Trees, with the hope, that the common man of this country will support us. Green Lungs aims to run its activities via 130 Crore Common People of India.

We target to plant 100 Crore Trees with the help of each one of the peoples of India. We aim to create jungles, rejuvenate deforested lands which have been destroyed by the human-greed, and while doing so, we will also educate Girl-child of the villages from the income of fruit-trees that we grow. Come join our mission by planting trees. Just order, we will plant on your behalf.
