iBrolly is a manufacturer of high quality promotional umbrellas that can be professionally branded from tip to handle.

We have offices in several locations throughout the world, from Sweden to Canada and beyond. iBrolly specializes in manufacturing highly customized umbrellas that bring brand identities and messaging to life. With today's printing and manufacturing technology, you can do so much more than just print your logo on an umbrella: You can color match the canopy, shaft and handle, even to your exact corporate PMS colors; you can print on the interior of the canopy, or add lovely finishing touches like embroidered labels and engraved handles.

You can even print full color photography or artwork all over the canopy. We can bring almost any creative design to life – or we'll design an umbrella for you, for free. Contact us about our free design service.

The design of iBrolly umbrellas goes beyond great branding and printing technology. In fact, the company was started over 20 years ago when its founder, Phil Page, was having great difficulty sourcing durable, quality promotional umbrellas for his clients.

Phil's search eventually took him overseas where he forged a long-standing relationship with an umbrella manufacturer in Asia. Throughout the years Phil has been working hand-in-hand with the factory, constantly developing new umbrellas and improving upon the quality. The latest addition to our collection is a Wood Walker made of solid maple.

**Our Factory:** ISO9001 Certified iBrolly's umbrella factory is ISO certified and has been audited and approved for social compliance by major corporations such as Max Mara, Disney and Elle. We often have our own people on the ground, in the factory making sure quality standards are met and exceeded. All iBrolly umbrellas come with full performance guarantees.
