For Integrative Systems, "Integrating Strategy with Transformational IT Capabilities" is more than a tagline - it reflects our approach to every engagement. As a strategic IT solutions & and services company, we focus on helping companies leverage innovative and transformational initiatives to optimize their enterprise-wide software applications based on AS400 (IBM i) and Microsoft, thereby delivering tangible business outcomes.

We work with our clients to help them thrive in an ever-changing world through strategic consulting, operational leadership, business process optimizations, and collaborative solutions.

[Integrative Systems](#) is a technology-driven organization that offers seamless solutions leading to business transformation. Our solutions help businesses become dynamic and flexible in this highly competitive business world.
