At Juarez Landscaping and Tree Services, we are committed to helping the Greater Boston Area residents and businesses and maintaining beautiful, healthy, and safe Landscapes and trees.

Amilcar's first approach to landscaping was planting of 16,000 tulips, a task assigned in the same restaurant where he used to worked. As a result of this experience, the idea of a business that would have its first outbreak in 2016 was born. In cooperation with his brother Walter, who was already familiar with basic gardening, they took action working construction and landscaping on their spare time.

We offer:

- *Landscaping Services*
- *Tree Removal Services*
- *Snow Removal Services*
- *Tree Trimming & Pruning Services*
- *Shrub Pruning Services*
