Labiaplasty aka vulval surgery is an operation to reduce the size of labia minora-skin flaps on either side of the vaginal opening. Dr. Chaitali Trivedi MD (Obstetrics & Gynaecology), and an expert Cosmetic & Laparoscopic Gynaecologist performs the [Labiaplasty Surgery in Mumbai](https://www.eqlic.com/detail/labiaplasty-surgery-in-mumbai-mumbai-357424). The surgery can be performed in girls above 18 years as the labia is fully developed by that age. It is carried out when females have enlarged labia due to various reasons like childbirth, sexual activity, aging, and genetics. The surgery is recommended if you experience urinary tract infections, have difficulty maintaining the hygiene of the vagina, exercise, wear certain clothes, do a sexual activity, and other physical activities; or feel conscious when becoming romantically involved with your mate. It can be performed by two techniques: trimming and wedging. To know more, schedule a visit today!
