The “[Livonta Global Pvt.Ltd](#)” is launched in India with a vision to expand its presence in every country making healthcare an easily accessible and affordable service by giving patients the “Right of Ownership to Choose and Decide” who, what, where, when and how much instead of making them unwillingly accept whatever is available. When the distance is not a concern and you are ready to travel halfway around the globe to an exotic and historic destination like India for Healthcare, Livonta Global pvt.ltd offers you attractive alternatives and exceptional benefits whether or not you and your family are medically insured. Medical Tourism in India is extremely beneficial when it comes to cost-cutting and at the same time result-oriented from medical/surgical accuracy as well as a post-surgical follow-up.
