

MR-1826 Facial Anti-Aging Beauty Device

	MR-1826 Facial Anti-Aging Beauty Device QRCode
Address	No.3, Lane 3, Jiazitang Road, Jiazitang Community, Gongming Office, Guangming New District, Shenzhen, China
Contact Person	Echo Xiong
Mobile Number	13688888272
Email	nicemay666@gmail.com

Features :

Only 10-15 minutes enjoy a Full Facial Treatment in house.

Ultrasonic with Positive Ion for face deep cleansing.

Ultrasonic with negative ion for leading [skin care](#) product , for better absorption.

EMS function , works with V-shape roller ball , efficiently for face lifting and firming.

Performance :

Combine with Ultrasonic , Gavanic Ion , EMS

Benefits: Deep facial cleansing / Better absorption for skin care production nutrition / Face lifting and firming

Solution :

Customized color , private label , packaging are available.

PRODUCT PARAMETER

Size	51mm x 50mm x 185mm
-------------	---------------------

Net weight :	183.8g
Material	ABS , PC , SUS
Waterproof	IPX 5
Main function	Ultrasonic , Positive Gavanic Ion , Negative Gavanic Ion , EMS
Ultrasonic frequency	3±0.5K MHz

Battery type built-in lithium battery

charging time 4.5H

Function button 1 button control

Original packing blister tray , cardboard box

Certificate CE-EMC, RoHS for device

UN38.3 , MSDS for battery

What does the ultrasonic skin care device do?

The ultrasonic facial machine deep cleanses your skin, exfoliates, removes pore clogs and infuses skin care serums.

The spatula gently exfoliates the skin, while the ultrasound helps remove deep dirt, oil and pore clogs. After extraction, an infusion follows, in which the ultrasonic spatula gently taps the skincare product into the skin for better absorption of the product.

We recommend 1 to 3 ultrasonic facials per week, depending on your skin, but this treatment is gentle enough for daily use!

For the ultrasonic skin care device, think of it as a device that massages precious serums deep into the skin. It concentrates ultrasonic energy to push the serum onto the skin layers. In this way, the active ingredients in your skincare products reach the layers where they can work their magic, and not just stay on your skin.
