# MTG Learning Media

<b>Address</b>	Plot- 99, Sector 44 Institutional area, Gurgaon 122003, India
<b>Contact Person</b>	Amit
<b>Mobile Number</b>	
<b>Email</b>	pcmb.mtg@gmail.com

MTG was founded in 1982 with the sole purpose of enabling students to achieve their potential in Science, Mathematics, English, and Computers.

Student-centered educational approaches and support are provided by MTG. It accomplishes this by producing and publishing relevant, exam-appropriate course materials and workbooks, so that students can self-pace, self-study, and self-evaluate their understanding of their course material and syllabus.

With this real-life scenario, students can see how they rank against their colleagues and where more effort needs to be made.

MTG's formula-for-success is proven by the fact that more than one crore students have benefited from their guides and workbooks, which are now available in many countries.

MTG also provides various necessary information that will be helpful like [jee main crash course](#) and various other necessary info for students to stay updated with the recent trends and perform better in exams.
