[Normal Paver Blocks](#) are made from cement, water, and aggregates such as sand, gravel, or crushed stone. Sri Ganapathy Pavers is the industry's Leading Paver Block Manufacturer in Tamil Nadu. They are produced in various shapes, sizes, and colors to fit different design requirements. The most common size for a normal paver block is 200mm x 100mm x 60mm, but they can be made in other sizes as well. These blocks are popular because they are easy to install, durable, and require minimal maintenance. They can be installed on a sand base or a concrete foundation and can be easily replaced if damaged.
