North Valley Solar Power is a leader among solar companies in Tracy, providing top-tier solar solutions to residents looking to harness the power of the sun. Our services include comprehensive energy efficiency audits, custom solar system design and engineering, and expert guidance on permitting and regulatory compliance. We understand the importance of net metering assistance and offer personalized consultations to maximize your savings. With an array of financing options such as solar leases, power purchase agreements (PPA), cash purchases, and tailored solar financing plans, we make going solar accessible. Plus, our knowledge of local incentives and rebates ensures that you get the best value for your investment. When it comes to installation, our professional team excels in setting up solar panels, battery storage systems, and even upgrading main electric panels where necessary. To give you peace of mind, we also provide a robust warranty and dedicated local service for all our installations.
