**Email** info@nebiolab.com

NorthEast BioAnalytical Laboratories LLC (NorthEast BioLab) is a bioanalytical lab with 15+ years experience in GLP and clinical bioanalysis services for drug testing and biomarker analysis to biotech and pharma companies, as well as the scientific and academic community across the healthcare sector.

We have extensive expertise in method development, validation, and transfer, mass spectrometric and chromatographic (LC-MS) bioanalysis, pharmacokinetics (PK) sample analysis, toxicokinetic safety testing, as well as other custom assay services. Our assay services include ELISA based assay, cell-based assay, biomarker testing, immunogenicity testing, biochemical assay, and Mechanism of Action (MoA) studies.

We are a mission-driven team of veteran chemists and biologists with an excellent track record of providing rapid and high-quality drug discovery, preclinical, and GCLP clinical Contract Research Organization (CRO) services. We happily assist you in developing effective strategies to meet the stringent expectations and timelines associated with various milestones throughout your drug development life-cycle.

Speak with our scientists today to expedite your drug R&D program!
