Dr. Howard believes that providing his patients with exceptional care requires a commitment to the latest technologies and techniques, which is why we use modern equipment and systems such as digital X-rays, high definition photography, and digital impression systems to provide safe, accurate, and quality treatment for its patients. Dr. Howard feels that educating patients about their oral health is of the utmost importance. Giving you the knowledge and tools to keep your mouth healthy can have a major effect on your overall health. From your toothbrush to your diet, Dr. Howard and his team want to help you achieve the level of care and health you desire.
