Pharmacokinetics

Our Preclinical Pharmacokinetics Department has a number of professionals with rich theoretical knowledge and experimental experience for experiment design, experiment implementation, bioanalysis and data analysis. Our Pharmacokinetics Lab has passed the GLP certification by NMPA. Following the guiding principles of ICH, NMPA and FDA. The lab offers in vivo and in vitro pharmacokinetic tests according to the needs of our clients and provide them with complete sets of pharmacokinetic evaluation and optimization services. Our acclaimed quality data collection and efficient experiment can meet our clients' needs from early drug discovery to new drug filing.
