We are a network of free pregnancy clinics and education centers providing medical pregnancy confirmation, sonograms, STD testing and treatment, material assistance and support to men and women facing a crisis pregnancy. All our services are free.

We believe no woman should feel pressured to terminate a pregnancy because she lacks education or support. We believe a real choice is made only when truthful information is presented in a compassionate non-judgmental way. We treat men and women regardless of age, race, nationality or economic means. Contact us at 239-280-5523!
