Recycle Technologies is a Midwestern electronic recycling and shredding company, providing services since 1993. We have licensed facilities in the US states of Wisconsin and Minnesota, with expanded operations in Chicago. We are proud to be the only minority-owned document destruction and recycling company in the region. If searching for electronics recycling near me isn't displaying options close to your location, our countrywide mail-in program has you covered. These recycling kits enable anyone to utilize our recycling services from the comfort of their homes, at no hidden cost.
