ROOST Design Hale is a furniture studio and full-service interior design space in Kailua-Kona, Hawai'i, created by designer Barbie Palomino.

It's not just a shop — it's a place where thoughtfully curated pieces and timeless design come together.

Barbie has been designing homes for years — both here on the island and for high-profile clients across the country. She has a sharp eye, a deep love for materials, and a way of pulling together spaces that feel elevated but relaxed. That balance shows in every corner of the studio — from custom upholstered chairs to sculptural vessels, handcrafted tables, woven baskets, and curated lighting. You'll also find artful pillows, distinctive wall décor, and one-of-a-kind home accents you won't see anywhere else on the island.
