Continental Belting Pvt Ltd, established in 1984, is a prominent manufacturer of various types of conveyor belts. Our Rubber conveyor belts are a continuous loop of fabric, typically polyester or nylon, encased in layers of rubber compounds. These Rubber belts, although seemingly simple, play a critical role in diverse industries and silently handle the transportation of bulk materials across diverse environments. You can ensure the smooth and efficient operation of your material handling systems for years to come by understanding their types, functionalities, and selection factors. [Rubber conveyor belts, although seemingly simple](#), are marvels of engineering, playing a critical role in diverse industries. You can ensure the smooth and efficient operation of your material handling systems for years to come by understanding their types, functionalities, and selection factors.
