The [rubber oil seal](#) has excellent chemical resistance and can be used for petroleum, fuel, solvents, etc.

PRODUCT DESCRIPTION

Rubber Oil Seals Feature:

Advantage: heavy machinery, and are usually used for lubrication of the shaft with a grinder or a large transmission shaft of the gearbox.

1. The outer edge of the clip seal fabric is composed especially strong, good static sealed;
2. The sealing lip having a radial permanent pressure contact;
3. Highly abrasion resistant.

We can produce various specifications according to customer requirements, materials, non-standard products.

Custom rubber oil seals

We design and develop specific and custom rubber seals for many industries.

Our rubber seals are used in the following industries.

- Automotive
 - Marine
 - Agriculture
 - Semiconductor
 - Chemical
 - Oil and gas
 - Heating, ventilation and air conditioning
 - Pharmaceuticals
 - Food & Beverage
-

- Power Generation
Fabric Reinforced R35 Rubber Fabric Oil Seals

Name	Red V type fabric oil seal
Material	Nitrile rubber cloth/ NBR with Cloth, FKM/VITON with cloth
Process	Molding
Size	8*22*7mm to 950*1000*25mm
Color	Black, brown
Hardness	70-75 shore A
Feature	Oil Resistance, rear resistance, heat resistance
Sample	Accepted
Apply	Industry machinery
Certification	ISO 9001
Keywords	V type textile rubber oil seal. Mechanical seal, rubber seal
Package	Papers inside, then carton boxes
MOQ	100 PCS

Shipping Sea freight · Land freight · Air freight

Payment TT, Alibaba Assurance
