[Seanote Construction](#) delivers premium home remodeling services across Central Florida, serving Gainesville, Ocala, The Villages, the I-75 corridor, and all of Alachua and Marion counties. Located just minutes from both Butler Plaza—one of the region’s largest retail and dining destinations—and Kanapaha Botanical Gardens, a local landmark known for its scenic beauty and community events, we are well-situated to bring personalized service to clients throughout the area.

Grounded in residential remodeling, our team combines expert craftsmanship, innovative design, and clear communication to deliver exceptional results. We handle everything from kitchen and bathroom remodeling to full home renovations, custom additions, aging-in-place modifications, historical restorations, window and door upgrades, and interior structural redesigns. According to Remodeling Magazine’s 2024 Cost vs. Value Report, a midrange bathroom remodel can recover up to 67.4% of its cost—making it one of the smartest investments a homeowner can make.

Our services also include commercial buildouts and MSHA-certified mining and industrial construction. At [Seanote Construction](#), we approach every project with precision, care, and a drive to exceed expectations. Whether it’s a single-room update or a full-scale transformation, we turn your ideas into enduring quality—just a short drive from some of Gainesville’s most vibrant and recognizable destinations.
