**Shanghai Dahe Packaging Machinery Co., Ltd.** is one of the leading Powder & **Granule packaging machinery manufacturer** and complete tailor-made packing line solution provider in china.

Founded in 1997, We had over 20 years manufacturing and trading experience in the industry. We have led the way in innovative design, manufacturing and servicing. **DAHE** has earned its industry reputation by manufacturing full line of custom-made powder & Granule packing line for cans/bottles/bags/pouch.

Since its founding, We had successfully developed a number of series and dozens of varieties of **packaging machinery** and supporting equipment. We had more than 40 invention patents and utility model patents and all our machines met GMP standard.

Our products have spread all over the country and exported to overseas. Relying on advanced engineering design concepts, rich practical experience, mature process control technology and innovative staff, our company can provide a complete solution package from program design, production development, installation and commissioning, technical training to after-sales service according to our customers actual needs. In recent years, our company had provided milk powder, protein powder and chicken powder canned and bagged production lines for different customer at home and broad, which had won us many praises and formed a good reputation.
