In the last two decades, Stonex India has brought about a remarkable transformation in the stone industry. They are a prominent player in the imported natural stone segment, offering over 500 types of stones sourced from the best quarries worldwide, including Italy, Spain, Greece, Brazil, and Turkey. With one of Asia's most advanced manufacturing plants, equipped with a state-of-the-art Stone Reinforcement System (SRS) technology, Stonex ensures that the structural quality and integrity of marble remain intact, making it timeless. Their products are highly regarded by top architects and interior designers in India.
