With a vision to create exquisite spaces, Stonex India has transformed the stone industry in the past two decades. It is a leading organization creating over 500 stone variants from the finest marble curated from around the globe (Italy, Spain, Greece, Brazil & Turkey). Stonex products are a top favourite amongst India's leading architects and interior designers.

Stonex operates one of Asia's best manufacturing facilities - a state-of-the-art Stone Reinforcement System (SRS) technology that comprises an 8-step process to protect the structural quality and integrity of marble to make it timeless. This technology produces 10% less wastage, 20% stronger products and 30% more shine! With better mechanical strength, greater scratch resistance and enhanced abrasion resistance, their marbles' structural quality and integrity are protected to make them last a lifetime.
