SYNLawn Australia is the largest local manufacturer, distributor and installer of artificial sports turf and synthetic grass. With a huge selection of Artificial grass varieties to choose from, all of which were designed specifically to cater to specific environments and resemble known varieties of natural grass. Our products are all extremely environmentally friendly, made from synthetic yarn derived from sugar cane. So you can reduce your carbon footprint, whilst getting your weekends back from any yard work. Our team of lawn experts will be able to guide you through the process of selecting the right product for you, and our professional installation team can help transform your backyard. From Professional sports grounds to nature strips and putting greens to Doggy do areas, free your yard from maintenance and make your landscape looking green all year round!
