The Hair Extension Group Home of Naked Weave

Unit 4, The Cherry Tree, 229 Haunch Lane
Warwickshire

homeofnakedweave@gmail.com

[Naked Weave](#) is a brand new take on applying weft hair extensions that uses no heat, no glue, no braids and most importantly, and what makes it so innovative, is that there are no visible connections. The trend setter. The first established weave of its kind in the UK. The way it is applied hides the connection from both the top and the bottom and also enables a more comfortable and versatile fit for most hair types. In addition to this, the positioning and sectioning makes simple and seamless row placement for the technician giving more versatility for the client making high ponytails more discreet.
