hello@theidearoom.co

The Idea Room was founded by award winning interior designer Kristin Calderon. We are a full service interior design center where we make your dreams come alive. Come visit our showroom to meet with a designer or shop for furniture right off of the floor. All of the furniture we have for sale has been hand picked by our design team to ensure its quality, durability, and appeal. Conveniently located right off of the I-15 and Saint Rose parkway, we are quickly becoming the favorite furniture store for Las Vegas and Henderson residents. Having completed a large number of interior design projects in the area, we have an extremely robust portfolio of new builds, remodels, and office space.
