## How are we Different?

Victory Lawns has been looking for ways to be 'different' since day one. Before we had a reputation for great customer service and excellent quality we had to find a way to convince potential clients to give us a try. So we implemented a Guarantee and not just any guarantee... anyone can say satisfaction guaranteed. We got specific, put it in writing, posted it on our website and made our guarantee bold. Seriously, name another lawn company that Guarantees in writing your complete satisfaction with every service call. And if anything about that service call disappoints you the company will fix the issue at their expense without argument, complaint or excuse. And if after attempting to fix your concern you were still dissatisfied, they would, without argument, pay another lawn care company of your choosing to fix your concern.
