Xebia Academy is the leader in providing the best training in Big Data & Data Sciences, Robotics, Agile, DevOps, Cloud Computing, BlockChain, and Testing. The training can be availed by an individual, enterprise or academic institution. Xebia Academy works closely with the industry leaders in respective domains to deliver enhanced training.

Our distinct training sessions cover hands-on and practical learning experience, best quality and relevant training course material (both hard & soft copies). Enterprises can utilize our training sessions to transform their business and improve work efficiency. Xebia Academy also provides customized solutions to address your business needs.

Academic institutions can avail comprehensive training of cutting edge technologies to students through Xebia Academy training modules. Xebia Academy offers world-class digital courseware, internship support, industry projects, regular webinars & tech-talks, annual hackathon, access to Xebia Events and placement support for Academia institutions.
