Among all the best Indian Railway apps Indian Train stands on the top with many highlight features included in it. They are many key features such as [PNR Status](#), Live Train Running status, Train Seat Availability & Wait List ticket confirmation chances, Train time table, [Platform Locator](#), Indian Train Enquiry, [Train Coach Position](#), and Train between stations. The key features which stand out from other apps is that it tracks your PNR number in the messages you got when you book a train from IRCTC and adds that PNR number automatically to the My trips section where you can get information about train running status, seat layout and coach position etc.
